

High School Space Study Committee Meeting
May 4, 2017

Summary

Welcome – Chair Orndoff

Discussion:

A video was shown that was created by high school students on the overcrowdedness at the high school.

The group was divided into three groups for breakout sessions (one group for each option--annex, addition, new high school building) to discuss pros/cons to be included as information at the Open House. The three groups then came back together and one member of each group shared their assigned option's pros/cons.

FORMAL VOTE:

Eric Miller made a motion to vote on the recommendation of a second high school. Cathy Weiss seconded. After a few comments, Chair Orndoff asked for a show of hands in favor of the motion to recommend to the School Board a second high school. **14-Yes, 0-No – the motion passed on a unanimous vote.**
(Deb Fitzgerald, Dr. Kizner, Craig Mackail – did not vote).

The presentation to the School Board will be held on May 16. Will include information that was provided at the May 11 Open House plus the community feedback from the Open House.

It was decided that the Committee's chair and three vice chairs will make the presentation.

Report on Subcommittee Planning for May 11 Open House:

Barbara Hunter, consultant, summarized the information discussed at the subcommittee's earlier meeting.

High School Space Study Committee Meeting Summary

May 4, 2017

Page 2

All committee members were encouraged to attend the Open House to respond to questions, give explanations, etc.

Dr. Kizner requested that a formal press release be written and sent to the press to summarize the meeting and the outcome of the vote. Ms. Hunter will prepare and have ready to send on Friday.

Jim Orndoff, chair, along with Dr. Kizner, thanked all committee members for being a part of this process.

The meeting was adjourned at 8:55 p.m.
