The new schedule meets the already stated objectives:

- Dual language students can remain at their 2016-2017 school (except Keister) regardless of transportation.
- Rising 5th and 8th graders can remain at their 2016-2017 school regardless of transportation.

The new times will alleviate overcrowding on many buses, decrease student wait time at dismissal and also accommodate cross district transportation needs. The new times will also increase the overall efficiency of the transportation system throughout the School Division.

We thank the City Transportation Department for their cooperation and flexibility.
